

FAIRWAY

"Like No Other Market"

Dear Robert,

I would like to take a moment and commend your company for introducing Fairway Supermarkets to the better header produce bagging system . I must admit, when you introduced the bag to fairway , I assumed it was just another header bag.

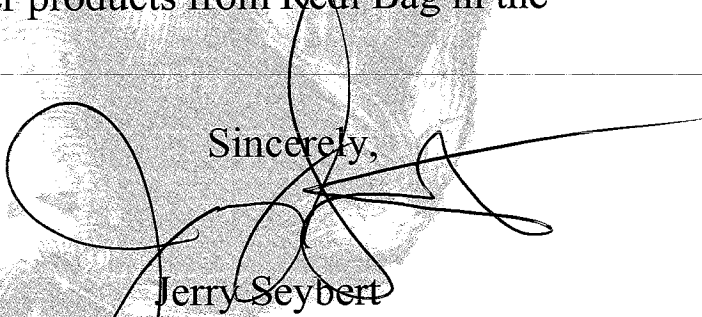

You sold the bag on its pouch feature and its ability to eliminate waste and liability caused from bags falling all over the floor of the supermarket.

The Better header Bagging system works!!!

Not only are we saving at least 10% by realizing no waste, we have also eliminated the liability issue associated with produce bags falling from the header to the floor. In addition, the quality of the print and the price you came in at, are unbeatable!

It's refreshing to deal with a company that has innovative solutions to the everyday problems we face in the supermarket industry. We are so impressed with the performance of your product that I am certain Fairway will be buying other products from Redi Bag in the near future.

Sincerely,

Jerry Seybert
