The Dual- Compartment Sealable Deli Bag

Our dual-compartment sealable bag is another great example of our never-ending mission to provide practical, cost-effective, and eco-conscious solutions that expand the possibilities of packaging to the food service industry.

Patent pending design for more convenience and safety.

- ✓ Exclusive patent-pending* multi-compartment slider design
- ✓ Ideal for merchandising meat and cheese combinations
- ✓ Perfect packaging for grab-n-go options
- ✓ Print options available up to four colors

Get *Redi* to discover the difference.

Our dual-compartment sealable bag is perfect for merchandising meat & cheese combinations as a quick grab-n-go option. Each side is a separate compartment and can be easily accessed by a single slider across the top. Pre-packaged deli items are a customer favorite, and these bags are the perfect packaging.

Features and Benefits of RediBagUSA dual-compartment sealable slider bag include:

- Two fully self-contained bag compartments**
- Single top slider for easy access**
- Stock and custom options available**
