

*More Grocery Game Changing
Innovation from RediBagUSA*

Pre-Opened Produce Bags

As part of our mission to never stop providing practical, cost-effective, and eco-conscious solutions that expand the possibilities of packaging, RediBagUSA offers a range of pre-opened bags, including our exclusive pre-opened produce bag.

Manufactured using a proprietary process, they are pre-separated and partially opened, making them easy to grab and fill.

This is a significant improvement over standard roll bags, which often stick together and require considerable effort to open. The unique design simplifies dispensing and reduces waste.

Patented design for more convenience, more safety, and more satisfied shoppers.

- ✓ Eliminate the need for shoppers to manually separate or open
- ✓ Pre-opened produce bag rolls fit most existing hardware
- ✓ Bag rolls may be hung horizontally, or vertically
- ✓ Pre-printed or customized also available (minimums apply)

Get Redi to Discover the difference.

Features and Benefits of RediBagUSA Pre-Opened Produce Bags, include:

TIME SAVINGS

Shoppers and employees can bag items faster, improving checkout or produce section workflows

REDUCED WASTE

Design minimizes excess plastic compared to more traditional bags

SUSTAINABILITY

Can be produced with thinner HDPE or incorporating recycled materials

DURABILITY

Lightweight bags are designed to handle typical grocery loads comparable to standard single-use bags

	Width	Length	Thickness	Material	Color
	12.00	17.00	10 MIC	HDPE	Clear

	Width	Length	Thickness	Material	Color
	12.00	20.00	9 MIC	HDPE	Clear
